# COACHES TIME OUT

SERVING THOSE WHO SERVE OTHERS

*A "time out" can be a pivotal part of the game. We help coaches and spouses make the most of it, so when the next whistle blows, they're ready to jump back into the game.*

**The concept is simple:** Coaches Time Out is a weekend getaway designed for coaches of any sport, age or gender; married or single.

**The need is obvious:** We know that a coach's influence is powerful. A coach is someone—maybe the only someone—with the platform to impact young people in a positive, meaningful and lasting way. We're not simply talking about developing athletic skill; that's a big part of it, but even more important are character, teamwork and sportsmanship. These principles are most effectively taught by a dedicated, Christ-honoring coach. If not a coach, then who?

**The experience is first class:** Coaches have a distinct opportunity to instill into their players the kind of values that make them not only dedicated and resilient competitors, but respectful and responsible people. CTO equips the coach with the tools to succeed in their calling. With speakers and subjects designed to address the needs of both the coach and the spouse—from coaching tips to relationships, finances to faith—we cover it all.

Launched in 1998, CTO has reached thousands of coaches by equipping, refreshing and encouraging their growth as a disciple of Jesus and helping to recognize their calling to make an eternal impact on the lives of their athletes.

::

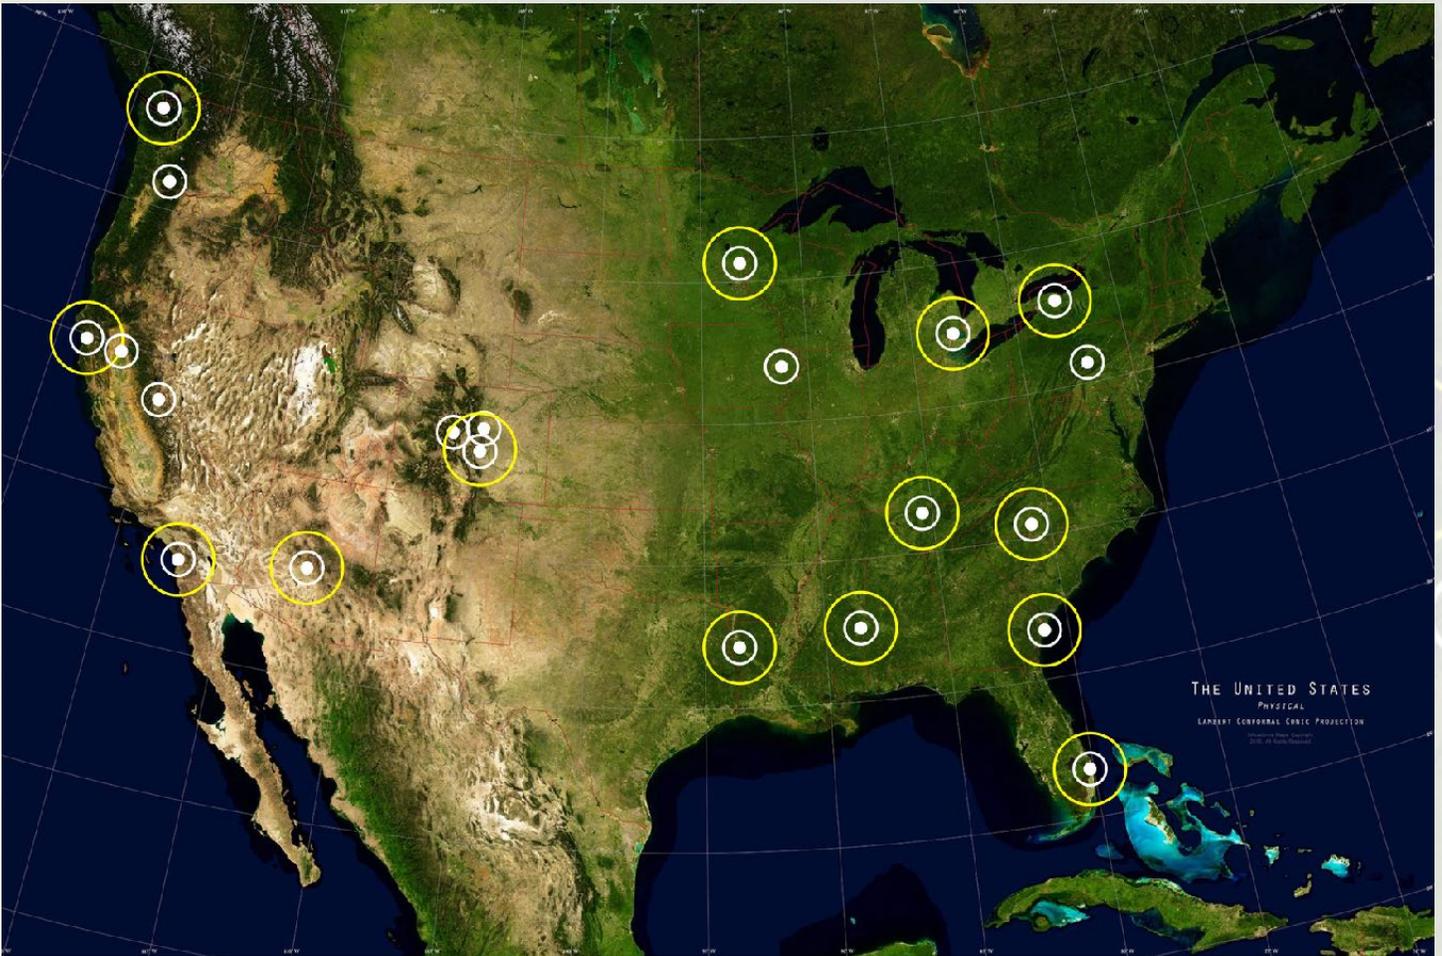

**Mission:** To equip, refresh and encourage coaches and their spouses to grow as disciples of Jesus, helping them recognize their calling to make an eternal impact in the lives of their athletes.

**Vision:** Building a nation-wide network of Christlike coaches and spouses united in community and equipped to influence the next generation through leadership, sportsmanship and discipleship.

## Where we've been over the past 19 years:

## Where we plan to go from here:

Our goal is that every coach in America will be able to drive to a CTO conference.

We know this is a big goal, but we also believe it is a good goal. Matthew 28:19 commands, "Go and make disciples..." and it is with this command in mind that we pursue our mission in helping coaches and spouses "recognize their calling to make an eternal impact in the lives of athletes."
